Onboarding Flow Specification — For Developer Use Only

1. Overview

Onboarding is the most important part of the Stormo experience. It is the first conversation a user has with their AI marketing manager. The quality and completeness of data collected here determines the quality of every daily action plan generated going forward.

Onboarding must feel like meeting a real marketing advisor for the first time — warm, focused, and purposeful. It is not a signup form. It is a conversation.

2. Design Rules

Interface style	Conversational chat — never a form or multi-field screen
One question at a time	Each question appears as a single Stormo chat bubble. Never two questions in the same bubble.
Quick-tap reply options	Every structured question includes 3–5 tappable reply buttons below the bubble
Free text option	User can always type a custom response instead of tapping a button
Progress indicator	Visible at all times — Topic 1 of 5 through Topic 5 of 5
Topic confirmation	After each topic Stormo confirms understanding before moving to next
Tone	Warm, energetic, consultant — never robotic or clinical
One-time only	Onboarding runs once per user. Answers stored permanently to user profile.

Quick-Tap UI:

Each structured question displays as a Stormo chat bubble followed immediately by 3–5 tappable button options below it. The user taps one button to answer or types their own response. Once answered, Stormo responds with a brief acknowledgment and the next question appears. This makes onboarding faster and easier for the user and produces cleaner data for the AI to work with.

3. Welcome Screen

Displayed immediately after authentication, before onboarding begins:

Welcome Screen Message
<i>"Welcome to Stormo. I'm your AI marketing advisor and I'm going to help you get customers — without spending money on ads. Before I build your personalized acquisition plan I need to learn about your store. This conversation takes about 10 minutes and shapes everything I do for you going forward."</i>

Single button below message: [Let's Go]

4. The Five Onboarding Topics

All questions are presented one at a time as Stormo chat bubbles. Quick-tap options are shown in orange below each bubble. Free text input is always available.

TOPIC 1 OF 5 — Your Store

Stormo states: "What is your store URL?"

[Free text field]

Stormo states: "What platform is your store on?"

[Shopify] [Etsy] [WooCommerce] [Squarespace] [Wix] [BigCommerce] [Other — type your own]

Stormo states: "What do you sell? Describe your products in your own words."

[Free text field]

Stormo states: "How long has your store been live?"

[Just launched] [1–6 months] [6–12 months] [Over a year]

Stormo states: "What is your average product price?"

[Under \$10] [\$10–\$25] [\$25–\$50] [\$50–\$100] [\$100+]

Stormo states: "Do you have photos or videos of your products ready to use?"

[Yes — photos and videos] [Yes — photos only] [Basic photos only] [Not yet]

Stormo states: "Got it — you're selling [product] on [platform] and your store has been live for [time]. Let me learn a bit more about your customers."

TOPIC 2 OF 5 — Your Customer

Stormo states: "Who is your target customer? Describe them in your own words — even a rough idea helps."

[Free text field]

Stormo states: "What is the age range of your ideal customer?"

[Under 18] [18–24] [25–34] [35–49] [50+] [Any age — no specific demographic]

Stormo states: "What is the gender of your ideal customer?"

[Mostly female] [Mostly male] [Both equally]

Stormo states: "Why would someone choose your product?"

[Free text field]

Stormo states: "What is the main reason someone buys your product?"

[Gift for someone] [Treat for themselves] [Solving a specific problem] [Hobby or passion] [Professional need] [Other — type your own]

Stormo states: "Perfect — I have a clear picture of your ideal customer. Now let me understand where you are right now."

TOPIC 3 OF 5 — Your Situation

Stormo states: "How many sales have you made so far?"

[\[Zero \]](#) [\[1–10 \]](#) [\[11–50 \]](#) [\[50+ \]](#)

Stormo states: "Have you ever run paid ads before?"

[\[Yes — I've run ads before \]](#) [\[No — never run ads \]](#) [\[I tried but stopped \]](#)

Stormo states: "What marketing have you already tried, if any, and what were the results?"

[\[Free text field \]](#)

Stormo states: "Thanks for being honest about where you are — that helps me build the right plan for you. Let's talk about your time and resources."

TOPIC 4 OF 5 — Your Capacity

Stormo states: "How much time can you dedicate to marketing each day?"

[\[15 minutes \]](#) [\[30 minutes \]](#) [\[1 hour \]](#) [\[2+ hours \]](#)

Stormo states: "Which social platforms are you comfortable using?"

Select all that apply:

[\[TikTok \]](#) [\[Instagram \]](#) [\[Facebook \]](#) [\[Pinterest \]](#) [\[YouTube \]](#) [\[X \(Twitter\) \]](#) [\[LinkedIn \]](#) [\[None yet \]](#)

Stormo states: "What is your monthly marketing budget right now?"

[\[\\$0 — organic only \]](#) [\[Under \\$100 \]](#) [\[\\$100–\\$500 \]](#) [\[\\$500+ \]](#)

Stormo states: "Do you have a smartphone with a decent camera?"

[\[Yes \]](#) [\[No \]](#) [\[I have a camera but it's not great \]](#)

Stormo states: "Are you comfortable appearing on camera for videos or reels?"

[\[Yes — I'm comfortable on camera \]](#) [\[Maybe — I'd try it \]](#) [\[No — I prefer not to be on camera \]](#)

Stormo states: "Good — I know exactly what I'm working with. Last topic — your goals."

TOPIC 5 OF 5 — Your Goals

Stormo states: "What does success look like for you in 90 days? Be specific."

[\[Free text field \]](#)

Stormo states: "Is this a side project or your main income goal?"

[\[Side project \]](#) [\[Building toward full time \]](#) [\[Already my main focus \]](#)

Stormo states: "I have everything I need. Let me build your personalized acquisition plan now."

5. Closing Screen

Closing Message — Displayed After Final Topic

"Perfect — I have everything I need to build your personalized action plan. Let's get you more customers."

Single button below message: [Build My Plan]

6. Post-Onboarding Behaviour

AI processes responses	All answers fed to Claude API to generate first personalized daily action plan
Dashboard loads	User lands on dashboard with first action already waiting for them
Welcome message	Stormo greets user by name with a personalized opening message based on their answers
Data storage	All onboarding answers stored permanently to user profile and passed to Claude API on every daily action generation call
No repeat onboarding	Onboarding runs once only — never shown again after completion

7. Developer Notes

- One question per bubble — never combine two questions in a single Stormo message.
- Quick-tap buttons appear below each structured question as tappable UI components — not inline in the chat text.
- Free text input is always available — user can type instead of tapping at any question.
- For 'select all that apply' questions, user can tap multiple buttons before confirming.
- Progress indicator (Topic X of 5) must be visible throughout the entire onboarding flow.
- Onboarding answers must be passed to the Claude API on every daily action plan generation call — not just at onboarding.
- The platform question must include an Other option with a free text field — never ask the user to type a platform name freehand.
- Store URL should be validated as a real URL format before proceeding.
- Growth tier upgrade prompt appears when user self-reports 10+ sales — always optional, never automatic.
- A \$35 upgrade fee has been approved for the quick-tap UI addition and expanded question set in this version.
- Stormo brand colors: Orange #E8621A / Dark #1A1A1A.
